WIDE VARIETY IN COSTUMES TO FEATURE MAY FETE

Costume Ball of Engineering Society Promises to Be Brilliant Affair; Prizes Offered to Man and Woman With Best Costume

The May Ball, justly called the Madri Gras of George Washington because of the frivolity and carnival spirit with which it is always greeted, returns to the social calendar this spring after one year's absence. On Friday, May 8, the masked revelers will invade the gymnasium and hold sway from 10.00 to 2.00. Happy Walker's Black and White orchestra is to furnish synco-

Senoritas, Hicks, Indians, clowns, little girls in rompers, and Colonial dames with shattered dignity will meet together with a cosmopolitan tolerance. On this night out of all the year, Chinese maidens will tango with red savages, and little hula-hula girls will waltz with pirates. Spectacle extraordinary which comes but once a year!

Much time and care has been expended on the planning of minute details to make the occasion a full success. The gymnasium has been decorated in black and white combination varied here and there with the bright colors of the different fraternity banners.

Happy Walker and his Black and White orchestra have been working with the committee in arranging special numbers which are expected to add much to the evening's program.

To avoid inconvenience and confusion, Rauscher's checking men have been employed for the dance, and will take care of that part of the arrangements with their usual quiet efficiency.

The Hooper Brothers, those soft-shoe artists will enact their art in a superhuman manner. Banjo Bill, famous for his weird southern dialect, will sing and play for the dancers several of his famous "Blues" songs.

Prizes are to be awarded to the man and the woman exhibiting the cleverest costumes. Although the nature of these prizes has not been made public, it is generally understood that they will be appropriate and worth while.

Confetti, horns and serpentine will carry out the traditional carnival spirit.

Tickets may be obtained at the Treasurer's office, the Law school office or from representatives of the Engineering Society for three dollars per couple.

G. W. MEN'S DEBATE TEAM DEFEAT NORTH CAROLINA

Will Hold Final Debate of Season with University of Maryland on May 12

The George Washington Men's Debating Team scored another victory Saturday night in Corcoran Hall when it won a unanimous decision over the debating team of the University of North Carolina. Trimble and Ogg took the verdict in a spirited contest with Livingston and Justice of the visiting university.

The George Washington team moved for the adoption of the Child Labor Amendment while the North Carolina couple contended against it. Excellent arguments were put forward by both sides, and while the visiting team were most forceful in their presentation, they lacked the oratorical skill and ability of the home representatives.

It will be remembered that the George Washington team took the decision in contending for the negative of this same question in a debate with Princeton University earlier in the season.

The next and final debate of the season will be held May 12, at the University of Maryland when Trimble, Hoagland and Crowell will meet the debating team of that institution to argue whether the President should have signed the bill providing for an increase in the salaries of members of Congress.

SORORITY WOMEN TO MEET

A meeting for all sorority women in the University has been called by Anna L. Rose, Dean of Women, to be held Monday evening, May 11, in room 29 of Corcoran Hall at 7.30. The meeting is for the purpose of discussing rushing rules for next year and all sorority members are eligible to attend.

G. W. TO CELEBRATE HOSPITAL DAY MAY 12

Birthday of Florence Nightingale Given World-Wide Tribute Through Hospitals

National Hospital Day will be celebrated Tuesday, May 12, at the George Washington University Hospital when the Board of Lady Managers of which Mrs. F. W. True is President, will receive all visitors at the Hospital from one o'clock until five. Members of the University and friends are urged to visit the hospital, which is of 110 bed capacity, and view the work being carried on.

The observance of this day is in anniversary of the birth of Florence Nightingale, and has come to be not only a national but also a world-wide tribute to that pioneer nurse, sanitarian, and administrator. Its object is to focus the attention of the public upon the administration and service features of the local hospitals and to interest the "hospital-using man in the street" in its support.

"Hospitals continue to need support and understanding from their communities. Communities continue to require an intelligent understanding of the service available in their hospitals in order that maximum use may be made of the facilities provided and that they may have a more generous attitude toward them, in order to maintain standards of efficiency."

The University Hospital has long been an institution in which the students have taken pride. Established in 1898 to increase the facilities for bedside and clinical teaching in the Medical School, the Hospital has not only grown but has increased the standard of efficiency and service. At the head of its staff are Dr. Sterling Ruffin, Physician-in-Chief, and Dr. William Cline Borden, Surgeon-in-Chief and Dean of the Medical School. In addition, a large staff of specialists is in constant attendance.

FIVE HUNDRED DOLLARS GIVEN MAURY MEMORIAL

Five hundred dollars has been contributed to the William A. Maury Memorial Library, which is to be installed in the law library in Stockton Hall in honor of this former faculty member.

The contribution was made by the daughter of the late Judge Maury, said Wm. Mathel Lewis, president of the University, and other contributions are coming in.

The memorial alcove was started by former students of Judge Maury, in appreciation of his teaching and inspiration according to Howard Lincoln Hodgkins, Dean of the University. It is to be ready to be installed when Stockton Hall is finished although as yet there is no idea as to its site.

The late Judge Maury began teaching in George Washington Law School in 1877 and was for thirty years on the faculty. In 1880 he received an honorary degree of LL.D. from George Washington. He was assistant attorney general of the United States from 1889 to 1898 under Harrison. The Judge died in 1918.

VOLUNTEERS TO MEET

Student Volunteers of the District of Columbia will meet at 3:30 p. m., Sunday, May 10, in the Sunday School room of the New York Avenue Presbyterian Church. Rev. Joseph R. Sizoo, chairman of the committee of International Relations of the Washington Federation of Churches will address the meeting. Students of the University are invited to attend.

OFFER LOVING CUP FOR BEST PROGRAM

Phi Delta Gamma Will Give Award For Best Presentation of Festival

FOUR CLUBS TO COMPETE

Competition Includes Tragic, Comic, and Historical Drama and Musical Comedy

An award of a silver loving cup has been offered by Phi Delta Gamma, honorary fraternity, to be presented to the producing club showing the best program during the "Dramatic Festival" being held at the gymnasium May 5, 9, 12, and 16.

The cup will be a permanent award and each year will be presented to that club which produces the best variety play. This marks the first time in the history of George Washington University that dramatics is recognized as a major activity and a reward offered to the dramatic organization excelling in its production.

Judges of the plays will be a committee of three, a member of Phi Delta Gamma, a representative from the faculty, and a third to be chosen by the other two.

A large audience is expected by those in charge from the number of tickets already sold, and the competition for the cup adds interest to the programs. President Lewis, faculty members on student activities, as well as dramatic critics from the various Washington newspapers, have been invited to attend.

Members of each producing club taking part in a performance will be guests at the other three productions.

For every nine season tickets sold by a student in the University, a bonus of one ticket is offered. In other words, a student disposing of 10 tickets is required to turn in money for only nine.

Mimes to Open Festival

Tonight is the opening night. The Mimes will present "Judge Lynch," by John William Rogers, Jr., and "Society Notes," by John West, two one-act plays as distinctly different in character as it is possible to imagine, the scene for the former being laid in the South among mountaineers, the latter being the love story of a young girl reared in the lap of luxury. In addition to the plays a dance drama and a short musical program will be offered.

"The Importance of Being Earnest," by Oscar Wilde, is the next production, to be shown May 9, by the G. W. players. A typically English play, this, and one certain to be found very amusing and entertaining.

A tragedy and a comedy, two Elizabethan one-act plays, will be presented by the Dionysians on May 12. This dramatic organization has taken for its objective the historical drama and in the "Duchess of Malfi," by John Webster, and "The Silent Woman," by Ben Jonson, the directors of the plays have promised an interesting view of the type of theatricals of that day.

And finally the Troubadours, on May 16, will close the festival with "The Minutae Lady," by Lida Larimore Turner and R. M. Stultz, a pleasing operetta of unusual interest and beauty.

Leaders of the association intend to make the "Dramatic Festival" an annual affair at George Washington, and it is with this idea in view that the cup is being offered by Phi Delta Gamma to stimulate dramatics and give an incentive to those aspiring to win recognition for the University among other colleges of the country in histrionic work.

NOTICE OF ELECTIONS!

Applications for editors and business managers of the Hatchet and Cherry Tree for 1925-26 must be submitted to Prof. Henry Grattan Doyle, chairman of the Publications Council, on or before Tuesday, May 12. Students desiring to submit applications for election to either of the major positions on next year's publications must state fully their qualifications, year in school, and whether full-time or part-time students. Elections will be made by the Faculty Committee upon recommendations of the Publications Council.

BUFF AND BLUE TRACKMEN TAKE MEET FROM JUNIATA

Hatchettes Garner Nine First Places in Dual Meet Saturday; Loehler, Aaronson and Trout Star; Meet Catholic U. Saturday

Orange and Blue trackmen of Juniata College were overwhelmed by the Buff and Blue cinder stars last Saturday on the Eastern High School track, George Washington winning 81 to 45. Determined to avenge their defeat at Huntington last year at the hands of the Juniata team, the Hatchet men swept all before them.

PYRAMID INITIATES STUDENT LEADERS

Honor Society Holds Initiation and Banquet at Madrillon for New Members

Formal initiation of the Seniors recently elected to The Pyramid, Senior Honor Society, was held last Wednesday evening, followed by a banquet at the Restaurant Madrillon. Approximately 30 active and graduate members were in attendance.

Professor Henry Grattan Doyle presided as toastmaster of the banquet. Among the members who spoke were William C. Van Vleck, Dean of the Law School and one of the founders of The Pyramid, Norman Taylor, A.B. '13 and M.S. '18, Professor Gilbert L. Hall, and Hillary A. Tolson, retiring president of the Society. All portrayed the great progress made in the development of student activities since the founding of the Society, and the field of endeavor yet remaining open to leaders in student activities.

The Pyramid Honor Society was founded in 1909 for the purpose of promoting the development of student activities at George Washington. Not more than 10 members are elected each year from among the members of the Senior Classes who have maintained a high scholastic average and distinguished themselves in the advancement of student activities.

The men initiated last Wednesday are Guy Hotel, captain of the football team, John Loehler, football and track star, Robert Harmon, director of the Glee Club and a track star, Arthur C. Perry, editor of the Cherry Tree, Fred Youngman, editor of the Hatchet, Harold Young, tennis manager last year and a member of the team, and Mike Dowd, basketball captain and a member of the football team.

Following the initiation ceremonies Walter Stokes was elected president, Stanley Tracy, vice president, Henry James, secretary-treasurer and Arthur Perry, Historian of the Society for the coming year.

INSTALL ZETA CHAPTER OF TAU ALPHA OMEGA

In the presence of members of other chapters in the east, the Zeta chapter of the Tau Alpha Omega national fraternity was installed at George Washington last week. Five local students were initiated, after which a dance was held at the Lafayette Hotel.

An address was made by the Supreme Chancellor of the fraternity, and during the intermission the brothers sang the Tau Alpha Omega song.

Patrons and patronesses present were Mr. and Mrs. Nathan Musher of the Georgetown chapter, Messrs. Is Rodis, Charles Aronstein, Harry Ostrow and Albert Musher. Fraters were present from the Johns-Hopkins, Maryland, and Georgetown chapters. Names of the George Washington students initiated will be withheld for a few days.

LAW STUDENTS INITIATED BY DELTA THETA PHI

Seven students of the law were formally initiated into the Delta Theta Phi Law Fraternity when formal initiation ceremonies were held at the Lafayette Hotel last Tuesday night. Following the initiation a light buffet supper was served. The new members are Donald E. Gibson, Edward B. Gibson, M. H. Brinkley, Joseph C. Brewster, Robert C. Thaxton, Robert A. Lavender, George L. Woodruff.

Officers for the coming year were also elected and duly installed following a supper held by the local chapter Friday evening, May 1, at the Oriental Cafe.

Individual honors of the meet were divided between Loehler and Aaronson of G. W. U., and Trout of Juniata, who were tied in points scored at 14 each. Nine first places went outright to the Hatchette team, while Aaronson tied in the low hurdles to give the Buff and Blue squad a tenth. Seven second places went to the Hatchet team, while they garnered nine fourths to bring their total to 81.

Ziegler, former Central High School star, won the century dash with ease in the remarkable time of 10 seconds flat, one watch catching him at 9.4-5 for the distance. "Bun" Tolson, famous old warhorse of the G. W. squad, took the place, giving the team a send off to an 8-point lead, from which they were never headed.

Captain "Bill" Simmons of the Hatchettes accounted for the 440-yard dash and the 880-yard run, capturing the first in easy style, but only getting the count in the second by a last minute leap for the tape to defeat Leiter of Juniata. Hewett of G. W. took third in the 440, and Chinn accounted for third in the half. Big John Loehler captured the 16-pound shot event in easy fashion with a heave of 37 feet 4 1/2 inches, with Andrus, G. W., second, and Meister, G. W., third. Loehler also took the 120-yard high hurdles, topping the timbers in 16.2-5. Nichols, G. W., took third.

The mile run went to Bill Shipley of the Buff and Blue, who was pushed to beat Patrick of Juniata in 4:48 flat. Willet, another Hatchette, easily accounted for the two-mile event, with Domigan and Shipley, his teammates, finishing in order named.

GLEE CLUB CONCERT! DANCE SET FOR MAY 14

Annual Affair Expected to Be One Of Biggest Social Events Of Spring Season

Gala decorations will transform the gym into a concert stage and ballroom on the night of Thursday, May 14, when the Men's Glee Club make their final appearance at their annual concert-dance. A good program by the singers and excellent music for the dancers assure an enjoyable evening.

The concert will be the culmination of a very successful year for the Glee Club. Besides their appearances at University functions, where they have become universally known and liked, they have sung at many events held all over the city. According to some of Washington's finest musicians, the G. W. Glee Club is a fine combination of voices.

The work of the club has been commended by Mr. Mischa Guterson, conductor of the Rialto Theater orchestra; Mr. Richard Lorieber, prominent cello soloist in this city, and Mr. Daniel Breeskin, conductor of the Metropolitan Theater orchestra.

An unusual program is offered for the concert on May 14. The selections will vary from the classic to the humorous, and is understood to include a real "negro spiritual." Among the songs are: "Caravan," "Lullaby," "Winter Song," "Little David," and "Old Man Noah."

Tickets for the affair can be obtained from any member of the Glee Club or from the Registrar's Office for 75 cents, or for holders of Student Activities Book 50 cents. The concert will begin promptly at 8.15.

DEAN MILLER SPEAKS

Dean Hugh Miller, of the Engineering College, addressed the Washington Secular Legion last Monday afternoon on the "Application of Science to Everyday Life."

WASHINGTON, D. C., MAY 5, 1925

AN APPEAL TO FRESHMEN

Now is the time for the present Freshman class to be looking forward and planning for next year. On them depends much of the future school spirit of the University, and on that school spirit depends progress.

How are the Freshmen to develop this spirit? School spirit, as we see it, is an intense feeling of group consciousness, manifested both in the feeling of unity with the whole of the school, and in the ties of class loyalty. It is in the second case that this year's Freshmen can serve, and indirectly through building class spirit, they will build the more comprehensive feeling.

When the class of '29 arrive on the campus they will not come with a fully grown school spirit, but they will come with minds open to the development of such a feeling. It remains for the class of '28 to see that this loyalty and support is so carefully instilled into them that they will keep their class consciousness throughout all their four years of school. It can be done, and the Sophomore class of next year is the logical choice for means of bringing it about.

Freshmen, get together now, perfect your organization, make your plans for greeting the new class as soon as they are on the campus! Enforce the wearing of caps or some other means of identification, so that Freshman will recognize Freshman and develop a sense of group unity! Have closed mixers for the different classes, and the usual combined mixers for Freshmen and Juniors, Sophomores and Seniors! Above all, support class rivalry! Give the Freshman a class pride and a jealousy of the class honor! The building up of spirit in each class as it comes into the University insures a universal spirit for the Alma Mater. You can do this for your University. Do it!

ANOTHER COURSE NEEDED

The unusual success of George Washington during the past year in all branches of intercollegiate competition seems to have brought little response from the student body as a whole in anything except football. It seems that the hardest task before the University in respect to its student activities is to educate the students to the fact that they attend meets, games and contests of this nature.

Two intercollegiate contests were scheduled by the University last Saturday, a debate with the University of North Carolina and a dual track meet with Juniata College, both at home. At the track meet, where more

men are thrown into competition than any football game, the number of student spectators was less than the number on the team. Such could hardly be said of the debate because there were only two on the team—but the audience could almost be lost in one of our smallest class rooms.

Students deplore the lack of school spirit at George Washington; they censure University officials when we fail to win in such contests; they censure officials when they fail to provide what they consider the proper kind of athletic and debate schedules; they blame students for not lending the right kind of support to their teams—and yet those students are usually the ones who know least about what the University's representatives are doing in intercollegiate competition and they always have something else to do when their presence is most needed.

We have a winning debate team, we have a winning track team, we had winning basketball and rifle teams but it does little good. No amount of publicity for these events will bring out the students. Nothing can seem to rouse them from that state of lethargy. What we need now worse than winning teams is an intensive campaign to educate these indifferent individuals to the necessity of their support on such occasions.

Next Saturday the track team meets C. U. in a dual meet at the C. U. stadium. Let's show a little support now.

CHEMISTS LEAD LEAGUE BY DEFEATING ENGINEERS

The Chemists practically clinched the interdepartmental championship Saturday when they defeated the Engineers, 13 to 9, in the only game played in the league last week. Clapper pitched a fair game for the Chemists and usually had things well in hand, but 10 bases on balls and eight hits accounted for the nine runs the Engineers made. Curtis, pitching for the Engineers, was nicked for 13 hits and 13 runs, besides contributing five bases on balls.

Until the fifth inning honors were about even. Then the Chemists combined two hits with three errors, scoring five runs and taking the lead. After that the Engineers never seriously threatened to win.

Rhea, for the losers, slammed out a home run in the ninth inning, while Hammond, on the same team, collected a double and two singles. For the Chemists, Andree, Fruchter, Newman, Clapper, Budd, and Valentine each secured two hits apiece.

Score by innings:

	R	H	E
Chemists	121	050	13x—13
Engineers	111	202	002—9

Batteries—Clapper and McNab; Curtis and Hammond.

LAMBDA PHI MU RECEIVES SUPREME GRAND MASTER

James Lomaro, M. D., Supreme Grand Master of Lambda Phi Mu and graduate of Cornell Medical School, was received by the local members of Beta Chapter, Saturday, April 25, at an informal luncheon given in his honor at 1219 M St., N. W. Among those present was Alfred Zitani, M. D., graduate of G. W. Medical School and honorary member of the fraternity.

Joseph J. Bono, Grand Master of Beta Chapter, acted as toastmaster and introduced Dr. Lomaro, who gave a short talk on the work of the fraternity. He spoke of its rapid growth in organizing eight chapters since its own inception five years ago with a possible new chapter shortly at the College of Physicians and Surgeons.

HISTORY PROFESSORS SPEAK BEFORE CLUB

The History Club's Faculty night, held on April 21, proved to be the most interesting meeting of the year. In accordance with a motion passed at the previous meeting of the club, members of the History and Political Science faculties of the University had been invited to attend the meeting and to give 10 minute talks on subjects of their own choosing.

The program of speeches was as follows:

Prof. Ragatz—The Monarchical Movement in France.

Prof. Churchill—The Reason English History has such an important place in the curriculum of the American college.

Prof. McArthur—The Romance of the Prospector.

Prof. Kaiser—The Renaissance Woman.

Prof. West and Prof. Tillema—Mr. Dawes and the Senate.

The closing meeting of the History Club this year will be a banquet which is open to all members of the history classes and faculty. Details will be announced later.

At high noon on April 23 at the Church of the Epiphany the marriage of Miss Mildred Murray to James Sutfin was quietly solemnized. Both the bride and groom are students of the University, the bride being a member of Phi Sigma Sorority and Gamma Eta Zeta, journalistic sorority. After May 1 the young couple will be at home at 900 Nineteenth Street N. W.

Prior to her marriage, Mrs. Sutfin was the guest of honor at a surprise shower given by Phi Sigma Sorority on April 16.

Professor and Mrs. Elmer Louis Kayser are the proud parents of a new daughter, Catherine Ludlow Kayser, born Tuesday, April 21.

The Women's Legal Club of the University gave a picnic breakfast for the girls of the First Year Class in Law School.

Miss Haley, president, with her aides arrived early and greeted her guests with a blazing fire and delicious food.

The bridge party given by Pi Beta Phi on Saturday, May 2, for the benefit of their settlement school was quite successful, a large crowd being present.

On Sunday, May 1, the Sigma Chi Fraternity entertained with their annual spring picnic. The crowd motored out to Great Falls, Va., where the day was enjoyed with impromptu entertainment and "plenty food."

Theta Upsilon Omega celebrated the anniversary of the installation of the Fraternity with a banquet given at the chapter house Saturday night, May 2. Professor Kayser acted as toastmaster, and Dean Miller, Dr. C. W. Mitchell and a number of active

and alumni members contributed their bit of oratory.

The marriage of Miss Verna Short to Ensign Anthony L. Danis took place in New York, at the Little Church Around the Corner, on April 22. Miss Olive Geiger acted as maid of honor.

Miss Short was a G. W. graduate of last year and a member of Zeta Tau Alpha Sorority. The couple are at home in Newport, R. I.

One of the series of subscription bridge parties being held by Sigma Kappa Sorority during the spring was given Thursday evening at the home of Winifred Michaelson.

The sorority again entertained during the week at luncheon in the rooms in honor of Miss Kinne, the grand historian.

Zeta Tau Alpha tripped the light fantastic at 1731 Eye Street, Thursday evening, from 9.30 to 12.30. Members and guests alike expressed themselves as having a delightful time. The surprise of the evening consisted in the unexpected presence of Mrs. Alpha Burkhart Wettach, national president, and Miss Marion Jelliecou, national inspector.

On Thursday evening, April 30, Betty Brandenburg was hostess to a large number of friends at bridge at her home on Park Road. Seven tables were employed for the games, fol-

lowed by dancing. Among the members of the University present were: Hattie Wise, Louise Braswell, Janice Sanger, Betty Armentrout, Frances Davis, Jeanne Gravatte, Helen Periam, Grace Atkins, Mary Temple Hill, Mary Shoemaker, Vance Brand, Harold Merrick, Bob Wilson, Dave Laux, Wade Becker, Babe White, Dick Dickinson, Chuck Cooper, Henry Zuberano, Bob Harper, Don Buckingham, Bassett Trudgeon, Roger Staley, and Francis Brandenburg.

On May 8 the Delta Tau Delta Fraternity will hold their annual Founders' Day Banquet at the house on Eighteenth Street, having as special guests the new initiates, who are: George D. Hucks, Alabama; Jesse Sanderson, North Carolina; Stanley Winters, Wyoming; and Burr Christopher, Michigan. Many alumni and out-of-town members are expected to attend.

Psi Chapter of Phi Delta Epsilon medical fraternity held its annual dance in honor of its senior members Saturday, April 25, in the ballroom of the Lafayette Hotel. The scene of the party was tastefully decorated in a scheme of lavender and white. Unique favors were given to the ladies.

Many visiting members of the fraternity from the chapters at Johns Hopkins and the University of Maryland were present as were some graduates who are interning in Baltimore hospitals.

And he has lived to see it

Back in 1885, Thomas A. Edison succeeded in transmitting electricity at 220 volts for one mile—an achievement and a promise.

The promise was fulfilled a few months ago, when electricity at 220,000 volts was transmitted two hundred and forty miles to supply Los Angeles with light and power.

Now five billion dollars are invested in electric power plants. A stupendous figure that testifies to the alertness of thousands of college-trained men who have been leaders in the production and use of electric power.

The electrical era has only dawned. Each year some new machine or discovery makes it possible to apply electricity in unexpected ways. The graduate of today will find electricity directly or indirectly a means for even greater accomplishments, no matter what his calling in life may be.

In 1881 Edison shipped to the Paris Exposition his "Jumbo" dynamo—eighth wonder of the world. It could light 1000 lamps. Now there are G-E generators large enough to supply current for over a million lamps, each with four times the candle-power of the lamp of 1881.

The General Electric Company produces other electrical apparatus which makes it possible to transmit power over great distances. It has put electricity in seven-league boots. In its laboratories, scientists are now experimenting with voltages ten times as great as the highest now in use.

If you are interested in learning more about what electricity is doing, write for Reprint No. AR391 containing a complete set of these advertisements.

WOMEN'S RIFLE TEAM
MAKES ENVIABLE RECORD

Letters and Medals Awarded Squad
of Ten Girls Undeclared
In Three Years

Walter Stokes, Coach of G. W.'s Rifle Squad, gave a short talk on "The History of the Women's Rifle Team," at Assembly, Wednesday, April 29, pointing out that the team has not lost a match in three years.

For the past two years the team, shooting seventeen matches the first year and fifteen the second, has swept their state clean. Practice was delayed three months this year because the range was not completed on time.

Coach Stokes gives as reasons for the coeds' success, "hard work, practice, and wonder nerve control in shoulder-to-shoulder matches."

The entire squad of ten girls received their G. W.'s and medals, while

eight of them—Captain Edmonston, Burklin, Huntzberger, Cotter, Kilpatrick, Shoemaker, Owens and Sophia Waldman, Manager and Captain—received high averages from the N. A. R. The average ranged from Edmonston's 94 to 90. The average for the eight girls was 91.

June Cooper was awarded the silver cup for beginners, in addition to winning the Senior Class Championship. Florence Ehret, Freshman, Lucille Spitzer, Sophomore, and Helen Lupton, Junior, won the diamond G. W.'s, emblematic of their class championships.

Sophia Waldman, one of the foremost riflewomen in the country, will be captain of the team for the coming year.

GOLF TEAM TO MEET

A get-together luncheon for golf enthusiasts of the university will be held Monday, May 16, at the Louise Candy Shoppe, 1714 H Street N. W., at noon. All men interested in promoting a golf team in George Washington University are urged to attend.

The dual match with Catholic University scheduled for Sunday, May 3, had to be cancelled. Captain Jo Bloom and James Dacis, star members of the team, were operated on for appendicitis last week, and could not play Sunday. This match will probably be held later in the season.

The golf team has been considerably handicapped this year, as the sport is a new one as far as university activities are concerned, but they hope to build a top notch team next season around the members of the present squad.

ENGINEERS DEFEAT
GALLAUDET NINE

Two Homers by Hottel Help
Boost G. W. to 8-5 Win
Over Kendall Greeners

TAKE LEAD IN SECOND

Fruchter, Hahn, Curtis and Clapper
Each Contribute One Run
to Total of Eight

The George Washington Engineers defeated Gallaudet at Kendall Green last Wednesday in weather that was much more suitable to play a football game than baseball. The score was 8 to 5.

Apparently Guy Hottel thought so too, for he played with the old punch that he has exhibited in so many football games, two home runs, a single, and a base on balls falling to his lot in the course of the game. Hottel's first "Ruth" came in the first inning when he slammed a long fly clear over the bank, far into right field. In the second he singled, scoring Fruchter, and he scored later himself.

A base on balls in the fourth was given to Hottel, and in the fifth he stepped to the plate and proceeded to slash out a long line drive past the center fielder for his second homer of the day. Clapper was on the mound for the Engineers and, while hit hard at times, he was handicapped by an umpire which forced him to "groove" the ball. Kanuss started on the mound for the Kendall Greeners but was forced to retire in the third under bombardment, Massinkoff taking up where he left off. Smith, in left field for the Engineers, contributed the fielding feature of the game when his fine throw caught Roser flatfooted at the plate.

After G. W. had gotten away to a one-run lead in the first inning owing to Hottel's homer, Gallaudet scored two runs when Krug singled and advanced to second as Curtis muffed Massinkoff's grounder. Both advanced on a passed ball by Cranford and King scored when Hottel threw wild to catch him off third. Massinkoff counted a second later when Riddle singled.

In the second inning the Engineers took the lead, scoring three runs on a single by Clapper, a double by Fruchter, a single by Hottel, and a single by Hahn. In the third, Gallaudet added a run on three straight singles by Reneau, Danofsky and Riddle. The Engineers retaliated with a single by Curtis and a long triple by Clapper. Both sides scored a pair in the fourth inning. For Gallaudet, Reneau was hit by Clapper, Danofsky walked, and so did Riddle. Reneau and Danofsky scored when Hahn let Strauss' fly drop for a hit. For the Engineers, Hottel walked, Hahn doubled, scoring Hottel. Smith walked and Curtis singled, scoring Hahn.

All scoring activities ceased after Hottel had knocked out his second homer in the fifth. The rough, water-soaked diamond made it difficult to field ground balls.

NETMEN DIVIDE HONORS
IN MEET WITH F. & M.

George Washington won the singles in the second match of the season from Franklin and Marshall of Lancaster, Pa., Saturday afternoon, but dropped both doubles matches. The games were played at the Chevy Chase Club.

Matches were, in most cases, close, and there was some good tennis form displayed by both teams. Three of the five singles sets were won by Washington men, while both matches of doubles went to the visitors.

A match with C. U. on the home courts is scheduled for today, May 5. The G. W. racketeers will also enter the Middle Atlantic Intercollegiate championship matches which will be run off at the Columbia Country Club, May 7, 8 and 9.

Summary of match with Franklin and Marshall:

Singles
Baum (G. W. U.) defeated Lefevre (F. and M.), 6-3, 6-3, 6-4.
Rush (F. and M.) defeated Law (G. W. U.), 7-5, 6-3.
Rutley (G. W. U.) defeated Stein (F. and M.), 6-3, 6-4, 6-4.
Newby (G. W. U.) defeated Wieand (F. and M.), 2-6, 12-10, 6-3.
Feagley (F. and M.) defeated Dugan (G. W. U.), 7-5, 6-3.

George Washington University, 3, Franklin and Marshall 2.

Doubles
Lefevre and Amelia (F. and M.) defeated Baum and Rutley (G. W. U.), 6-1, 3-6, 6-2.
Rush and Stein (F. and M.) defeated Newby and Miller (G. W. U.), 4-6, 6-1, 6-3.

SPORTS IN SPOTS

One Year Rule
Rifle Team Standing
Walter Stokes
Irvin McGrew

George Washington University has adopted the one year rule in athletics to become effective with the school year of 1926. What will the adoption of this rule mean to Sports and Athletics at the University?

First it will mean that the athletic teams will be enabled to play the best teams in the country, without fear of having these teams reprimanded by their Conferences for participating in games with non-conformist teams. Universities without the one year and migratory rules are fast coming to gain bad reputations on one of two counts, either that they use professionals and ringers on their squads or that they cannot put a decent team in the field without the aid of the freshmen athletes. The past year has proven that G. W. can put a good team in the field and no one would accuse the authorities of using professionals at a school where athletic scholarships are not even offered.

For the next year or so the records may suffer a little from this rule, but soon it will work so smoothly that it will be a big help to the development of athletics because of the freshmen teams. Freshman athletics has become the training school for varsity athletes in American Universities.

Sharpshooters representing George Washington in both the men's and the women's Intercollegiate Championship matches, which are national in their scope, have hung up an enviable record by winning second places. In the men's matches the team lost its championship gained last year by five points, shooting a total of 1,904 out of 2,000, Columbia winning the championship from the Hatchettes by shooting a 1,999 mark. The winning score made by the team in 1924 was the almost impossible one of 2,919 out of 3,000. The girls team ran second to the University of Washington, last year's champions, with a record of 2,771 out of 3,000, when the U. of W. coeds shot the remarkable score of 2,798.

Walter Stokes, former George Washington and Olympic Rifle star, who completed his studies at the university a year ago is coach of the team this year and has made an enviable reputation in this capacity. Last year as Captain he led the team to the Championship and made high scores in several rifle meets in this country and also as a member of the American Olympic Rifle team.

TRACKMEN TAKE VICTORY
IN MEET WITH JUNIATA

(Continued from page 1)

Nichols of G. W. U. captured the high jump without effort; Aaronson, G. W. U., and Engle, Juniata, tying for second when they missed the jump at 5 feet 4 inches. Aaronson and Harmon, both famous at pole vaulting, easily brought the Hatchettes the first two places in this event, and did not bother to jump the tie off. They both went 10 feet 6 inches.

Trout of Juniata won the 220-yard dash, beating Tolson out in the stretch, and Easton of the Pennsylvania school ran third. Trout also won the javelin throw, hurling the spear 146 feet 6 inches. He took second in the 440 and garnered third in the 100-yard dash.

The discus event went to Groves of Juniata, the Huntington man tossing the "pie-plate" 105 feet 4 inches, to beat Loehler.

Several George Washington records were broken in the meet, among them being the century dash in 10 seconds flat. Willet, in winning the two-mile event bettered Simmons' time made last year by three seconds.

Next Saturday the Buff and Blue trackmen will be led against the Red and Black cinder and field stars of Catholic University. The meet is to be held at the Catholic University stadium in Brookland and will get under way at 1.30 p. m. sharp. Only a scattering audience watched the Juniata meet and it is hoped that the school will turn out next Saturday to see their trackmen battle C. U. for honors.

Summaries follow:

100-Yard Dash—Won by Ziegler (G. W.); second, H. Tolson (G. W.); third, Trout (Juniata). Time, 0:10.

One-Mile Run—Won by Shipley (G. W.); second, H. Tolson (G. W.); third, Domigan (G. W.). Time, 4:48.

Pole Vault—Harmon (G. W.) and Aaronson (G. W.) tied for first; third, De Bolt (Juniata). Height, 10 feet 6 inches.

Shot Put—Won by Loehler (G. W.); second, Andrus (G. W.); third, Meister (G. W.). Distance, 37 feet 4 1/4 inches.

220-Yard Dash—Won by Trout (Juniata); second, H. Tolson (G. W.); third, Easton (Juniata). Time, 0:23 1-5.

High Jump—Won by Nichols (G. W.); Aaronson (G. W.) and Engle

(Juniata), tied for second. Height, 5 feet 4 inches.

120-Yard High Hurdles—Won by Loehler (G. W.); second, Pentz (Juniata); third, Nichols (G. W.). Time, 0:16 2-5.

Discus Throw—Won by Groves (Juniata); second, Loehler (G. W.); third, Andrus (G. W.). Distance, 105 feet 4 inches.

440-Yard Dash—Won by Simmons (G. W.); second, Trout; third, Hewitt (G. W.). Time, 0:53 3-5.

Broad Jump—Won by Engle (Juniata); second, Aaronson (G. W.); third, Loehler (G. W.). Distance, 19 feet 11 inches.

Two-Mile Run—Won by Willet (G. W.); second, Domigan (G. W.); third, Shipley (G. W.). Time, 10:30 3-5.

Javelin Throw—Won by Trout (Juniata); second, Giles (Juniata); third, Aaronson (G. W.). Distance, 146 feet 6 inches.

220-Yard Low Hurdles—Won by Aaronson (G. W.) and Pentz (Juniata), tied for first; third, Groff (Juniata). Time, 0:27 1-5.

880-Yard Run—Won by Simmons (G. W.); second, Leiter (Juniata); third, Chinn (G. W.). Time, 2:08 1-5.

Felix writes from VENICE
Up very betimes and matched centesimi with Jack to see which of us would escort the fair Kitty gondoling, winning with my double-headed pocket piece, as is my usual wont.
To Grand Canal Streets, where the traffic ensnared us for an hour, whilst the copper slept. Thence to the Rialto, myself expecting to see May Meow in "Kitten onna Keys," and was greatly disappointed.
Hats off, incidentally, to Bro. Felix, winner 1925 Olympian yodeling title, and Trainer McKat. Kitty was there to cheer and U. S. won in a walk, by default.

SUMMER SCHOOL HAS NEW COURSES

Prominent Professors From Other Institutions to Come Here For Session

ASSEMBLIES TO CONTINUE

Demand for Catalogues Indicate Large Registration Is to Be Expected

Summer school is to be divided into six and nine week sections as before, the former being from June 22 to August 1 and the latter from June 15 to August 1. As Dean Ruediger will be away teaching at the University of Southern California, Professor Kayser will be associate director of the summer school and have complete charge.

A number of prominent teachers from other institutions will be here, among them being Prof. Arthur S. Wright, of Dartmouth; Prof. J. W. Sprowls, of St. Johns; Prof. C. G. Eichlin, of the University of Maryland; Mr. W. S. Deffenbaugh, of the United States Bureau of Education, and Mr. L. G. Hoover, of Central High School.

The assembly exercises will be continued, but will be held at 8 o'clock in the evening instead of at noon and will be open to the general public.

The scope of the courses will be approximately the same, except that most of them have been enlarged.

Professor Griggs, with the assistance of Professor Bowman, will conduct an increased course in botany, including ecology evolution and field botany.

Advanced work in organic chemistry will be under the direction of Professor Acree, while Professor McNeil will have charge of the general chemistry.

A number of new courses are being offered in education, among them being the recitation, educational tendencies (recent), with special importance on individual instruction and the school principal. There are 13 in all.

Professors Wilbur, Croissant, and Bolwell will again offer work in English. Their courses will be supplemented by Dr. Anderson and Mr. Smith.

In romance languages, full first and second year work will be available. Classes will meet twice a day so that the entire six semester hours may be covered. This includes conversational French and Spanish. A third year course under Dean Henning will be offered at 4 o'clock.

Conversational German under Professor Schmidt, supplemented by first year German under Professor Gropp, will be offered on the same plan as the romance languages, the classes meeting twice a day.

Geology will be offered under Professor Resser instead of Professor Bassler, who will spend the summer in Europe.

History will be covered by Professors Kayser, Churchill, and Ragatz. In liberal sciences the same courses will be offered as have been given during the winter term. This applies also to philosophy and psychology.

Professor Borden will offer an advanced course in algebra and geometry, especially designed for teachers of both in secondary schools.

Physics has been restricted to a course in general introductory physics accompanied by laboratory work.

Political science will be under the direction of Professor Hill in the morning and Professor West in the afternoon.

The entire course in premedical zoology, covering eight semester hours, will also be offered, and a course in nature study for teachers under Miss Quick.

The many requests that have been received for catalogues of the summer school work indicate a large attendance.

DEDICATES TABLET IN HONOR OF TRUSTEE

A memorial tablet in honor of James Ormond Wilson, for many years an active member of the board of trustees of George Washington University, was dedicated at services on May 1, in Wilson Normal School. The tablet was designed by the artist, French.

The late Mr. Wilson was superintendent of schools.

ETA CHI SIGMA AND ALCHEMISTS MERGE

Banquet at Cairo Will Celebrate Affiliation of Chemical Organizations

Eta Chi Sigma, Chemical Fraternity, was merged into the larger Chemical organization, The Alchemists, at a joint meeting held Friday, May 1. The name "Alchemists" will be continued.

Redrafting of the constitution to include the best elements of each, and the drawing up of a definite program of activity for future cooperation with the Chemical department of the University were the chief subjects of business for the evening. At least 75 percent of the membership of the group is actively engaged at the present time in chemical research either in the University or in government departments.

A formal banquet at the Cairo Tuesday evening will celebrate the merging of the two societies. President Lewis, Dean Hodgkins, Professor McNeil, Dr. Acree, and Prof. Munroe will be present and will give short talks. The honor guest of the evening is to be Dr. R. S. McBride, assistant editor of "Chemical and Metallurgical Engineering."

The Alchemists Society is offering a medal for the first time this June to the senior student making the highest average in chemical subjects. The award will be an annual event hereafter.

MRS. COOLIDGE SENDS FLOWERS TO BENEFIT

Mrs. Calvin Coolidge, who is a member of Vermont Beta Chapter of Pi Beta Phi Fraternity, sent flowers from the White House conservatory and "best wishes for the success of the occasion" to the bridge party given for the benefit of the Pi Phi Settlement School by the George Washington Chapter last Saturday in the Burlington hotel.

The Pi Phi Settlement School which is in an isolated mountain district of Tennessee is maintained by contributions from the Pi Phi active chapters and alumnae clubs all over the country.

The other patronesses were: Mrs. William Mather Lewis, Mrs. Howard Lincoln Hodgkins, Mrs. William Allen Wilbur, Mrs. Dale Drain, Mrs. Joshua Evans, Jr., Mrs. Sidney F. Taliaferro, Mrs. Henry Gratton Doyle, Mrs. Thomas P. Littlepage, Mrs. Wilson Compton, Mrs. Clifford K. Berryman.

EXTENSION COMMITTEE APPOINTED BY COUNCIL

By appointing an extension committee at the meeting held last Sunday the Interfraternity Council has taken definite steps to cooperate with the administration in promoting the best interests of the University.

The extension committee, composed of Henry James, chairman, J. T. White, and C. H. Gardner, will cooperate with the University officials on behalf of the fraternities in all cases where the influence of these organizations will be of benefit in executing the policies of the University, and will endeavor whenever possible to give the University the proper kind of publicity.

VAUDEVILLE DRAWS BIG CROWD TO GYM

Tango and Apache Dances Thrill Audience; Blackface Acts Are Comedy Hit

GREAT VARIETY OF ACTS

One-Man Wrestling Act Vies With Musical Skits and Esthetic Dance Number

More than 1,000 people packed the university gymnasium for the annual spring vaudeville held last Friday night, May 1. Twelve snappy and interesting acts were put on by members of the school and some were decided "hits."

The opening act was entitled the "Twentieth Century Courtship of Miles Standish." One of the co-eds added a little extra war-paint to her ordinary make-up, and gave to a rather pretty looking "boy" an example of her method of the chase.

Act "W" on the program brought Beatrice Woodford and Robert Barnes on a rough and tumble Apache dance. The number was very much enjoyed by the audience, but several exclamations were heard when Miss Woodford was thrown roughly to the floor by her partner as a part of the dance. She got her revenge by a dagger thrust between the shoulder blades, but one of the black-faced performers whispered to the audience on the sly that the Apache walked off the stage as soon as the curtain fell.

Bright gags, a little fun and some fast stepping put over the "Four and a Fraction Street Cowboys." Several remarks concerning new daddies among the faculty brought whoops of laughter from the crowd.

"The Usual Way," an old number brought strictly up to date, was the next feature. The little play was given in three acts, and the action unfolded to the story in rhyme as told by Marcella McCormick; a clever bit of esthetic dancing by Margaret Beasley was given during the act.

Elizabeth Halsey stepped between the curtains and gave a modernized version of "Pyramus and Thisbe" as the stage was being arranged for the next act. Her recitation was very well received.

A "Two in One Wrestling Exhibition" brought forth a law school offering with graduate attorneys and glee club promoters backing "Battling Kid Hercu" and the "Masked Marvel." Referee "Reds" gave the decision in the third and decided round to Kid Hercu by default.

Margaret Zolnay and Luis Alfaro gave a neat and thoroughly enjoyed exhibition of the Argentine tango as a dance feature. Dressed in the true Spanish costume the couple repeated their hit of "The Talk of the Town" to the delight of the audience, who called them back several times.

"Darkened College" brought forth three ambling black brothers well known on the campus, and they were not allowed to leave the stage for a full half hour. Jokes, songs, clog dancing, and general fun-making filled their performance, and several members of the faculty were again brought into the limelight by touching remarks. Following this act Kathryn Lee Keep gave two delightful little dances, featuring a change of costume. Her dancing was very much enjoyed.

No act is complete today without some reference to the ever present cross-word puzzle, and the "Cross Word Puzzle Revue," presenting seven pretty maids and the "man" gave a novel feature of it. "We're wise as we can be" was the catchy last line to this act, which was written and directed by Mr. C. W. O'Conner.

"Four Feet to Music" brought two tuxedoed banjists to the front. After several selections they retired to keep accompaniment to the Hooper Brothers, who gave a skillful exhibition of dancing.

The grand finale came with the act entitled "Ain't it a Shame." This little skit, written and directed by Louise Espey, depicted in comic and yet historic details the making of the first flag. The "footlights," "curtains," and "scenery" of the act were quite pleasing to the eye. Dorothy Lewis took the part of George and Ruth Hutchison the part of Betsy.

POLITICAL SCIENCE CLUB HAS SPEECH PROGRAM

A thorough review and frank discussion of the problems of the Philippine Islands from the Filipino point of view was given by Mr. Santos, a native of the islands, last Tuesday evening at the meeting of the Political Science Club in Corcoran Hall. Dr. Hill, of the Political Science department, gave his opinion of the effect of the election of von Hindenberg to the German presidency, and Mr. Hathaway spoke on "Congress and the President."

In his speech on the Philippines, Mr. Santos attributed the present unsettled political and undeveloped economic conditions to the joint conspiracy of American partisanship and capitalist influences.

On the subject of the election of von Hindenberg, Dr. Hill said:

"There is no doubt but that the election of Hindenberg will result in a greater respect of other countries for the German Republic. Contrary to public opinion, the election of the former war-lord does not indicate the probability of a return of the former Kaiser or of the Crown Prince. What the future holds for Germany remains to be seen."

Mr. Hathaway developed the history of the several conflicts that have marked the attempts of each to gain a degree of supremacy over the other.

FUTURE TO DEPEND ON AIRCRAFT POWER

Significance of Air Service in Commerce and War Told By Air Colonel

"Transportation and communication maintains relations between countries, and those in the future shall be accomplished by aircraft," said Colonel Mitchell, speaking before the Engineering Society Wednesday night. His talk embraced the development of "Modern Air Power," the role it plays today and the role to be played in the future.

"Foreign countries," said the Colonel, "have grasped the significance of aircraft, both as a commercial enterprise and as an impregnable system of defense. Companies engaged in aeroplane manufacture and air transportation are heavily subsidized by the Government. Fifty percent of the expenses of manufacture and maintenance are borne by it and a profit of 5 percent is guaranteed."

The Colonel stated that in this country civilian enterprises in the field of aeronautical transportation is practically negligible, the only work of the kind being by the Army Air Service. He then stressed the deplorable state of aeronautical affairs in this country.

The lecture was illustrated by lantern slides and motion pictures, the latter dealing particularly with the bombing of warships. Describing the attack upon a warship, he said: "To the airman it is a great defenseless hulk, sinkable with one well-placed bomb—and the bomb today can be dropped from an airplane with greater accuracy than any other projectile in modern warfare. Height makes no difference. With a modern bombing sight a ton of TNT can be dropped from any altitude with devastating effect."

The Colonel also illustrated by maps the little importance of the Hawaiian Islands in the defense of the Pacific by airplanes. Alaska, he pointed out, was the natural front line of defense, for from there a plane could be speedily sent into Asia.

Do College Students Insure Their Lives?
The Answer Seems to be "Yes"

Do You Know

That in a test recently made with upper-class students of both sexes in fourteen representative colleges, 140 out of 351 said they carried life insurance policies?

It is significant that 40% of undergraduates have insurance on their lives—a notable advance over what prevailed twenty, or even ten, years ago.

The John Hancock is particularly interested in insuring college men and women and in obtaining college graduates for the personnel of the field staff.

Over Sixty Years in Business. Now Insuring Over Two Billion Dollars in Policies on 3,500,000 lives

This shows that college students and their parents think life insurance is of considerable use in connection with the educational program.

Parents believe in it because they have something invested for the benefit of their children. Students realize that their lives have an economic value. Taking life insurance is an expression of faith in the value of a college education.
